## I Was Watching You

## **Rosanne Cash**

Headlights on a Texas road Hank Williams on the radio Church wedding, they spent all they had Now the deal is done to become Mom and Dad

And I was watching you from above Cause long before life, there was love

See those little girls dressed like china dolls All for one, then one by one they fall High on a hill while the world passes by You never came back, but I know you tried

'Cause I was watching you from above When it all falls apart, there is love

All those years to prove how much I care I didn't know it, but you were always there Till September when you slipped away In the middle of my life on the longest day

Now I hear you say I'll be watching you from above Cause long after life, there is love Baby I'll be watching you from above Long after life, there is love.
