

Shine Your Light

Rose Royce

Lay your head on my shoulder
Come on and rest awhile
Close your eyes if you want to
And take it easy, child

You don't have to
Go home tonight
I just wanna be the one
To put the sunshine in your life

I've been over the rainbow
Just looking in your eyes
And you smile like the morning sun
That opens nature's eyes

You don't have to
Go home tonight
I just wanna be the one
To put the sunshine in your life

So shine your light
Let the music play
Turn out the lights
We're gonna get away
So, baby, here's to life
And loving you

I just wanna feel your love
So let's make love tonight
I just wanna be the one
To put the sunshine in your life

So shine your light
Let the music play
Turn out the lights
Baby, we're gonna get away
So, baby, here's to life
And loving you

Shine your light
Ooh, turn your love light on
You don't have to go home
Stay awhile, my angel child
Let your mind, soul and heart be free
You can trust in me
