

Say What We Mean

Rosetta Stone

Addicted to the drug, contemporary life
Complex procedures to consider all the time
Transfixed to the screen, I could do another line
It's been a bad day

From this bad dream
We need to wake up
Say what we mean
How it makes us feel, alone
Alone
Alone
Alone
Alone
Can't even spare a moment to, can't sympathise with you
Been on almost half a day, I know I won't get through
Spoke to seven people, I keep going back and to
It's a [?] game to them

From this bad dream
We need to wake up
Say what we mean
How it makes us feel, alone
Alone
Alone
Alone
Alone

Can't even begin, to take it all in

Some deal, some dead, some call and spin
Can't even begin, to take it all in
Some deal, some dead, some call and spin
Can't even begin, to take it all in
Some deal, some dead, some call and spin
Can't even begin, to take it all in
Some deal, some dead, some call and spin

When did all this happen, I didn't have a clue
I was stood up in [?], but I really never knew
Now it's been accepted and the changes have been approved
This final service come
From this bad dream
We need to wake up
Say what we mean
How it makes us feel, alone
Alone
Alone
Alone
Alone
Alone
Alone
Alone
Alone
