

Got What We Wanted

Rosi Golan

The spaces forming between us
And oh how we feed them without even knowing
And somewhere we were both hoping
That we would break open and see what's inside

Well we got what we wanted, got what we wanted
Didn't we, didn't we, didn't we, didn't we
We got what we wanted, got what we wanted

The unknown is a place that we run from
The things that we're thinking but don't know how to say

We got what we wanted, got what we wanted
Didn't we, didn't we, didn't we, didn't we
We got what we wanted, got what we wanted

Careful what you dream of, things have a way of working out
We got what we wanted, got what we wanted

Ah-ah-ah-ah-ah...

Careful what you dream of, things have a way of working out

We got what we wanted, got what we wanted
Didn't we, didn't we, didn't we, didn't we
We got what we wanted, got what we wanted

We got what we wanted, got what we wanted
Didn't we, didn't we, didn't we, didn't we
We got what we wanted, got what we wanted
