

Better Man

Rosie Carney

Speechless

Wonder if you feel the same, but I am
Clean hearts are better beating this way

I was the anchor that slipped in your sand
How can we sail if you're stuck to this land
I'll let you go if you want, I don't know if I can
It won't make you a better man

Shaded out the spaces between
Yeah, they may have seemed like miles
But they were nothing to me

I was the anchor that slipped in your sand
How can we sail if you're stuck to this land
I'll let you go if you want, I don't know if I can
It won't make you a better man

We were drifters and how we drifted away
It didn't matter how far we'd go
I'd always hope we ended up in the same place

I was the anchor that slipped in your sand
How can we sail if you're stuck to this land
I'll let you go if you want, I don't know if I can
It won't make you a better man
