

## Finish Line

Rosie Thomas

Go now go while you can  
From the love that's brought you down  
Things will soon come around I swear  
And they'll be sorry they let you down  
Go now go while you can  
From the life that's brought you down  
Things will soon come around I swear  
And you'll have it all figured out  
Never really worry for a bit  
Sometimes it feels worse then it really is  
You may always be changing your mind  
Just push hard for the finish line
