

Love Never Fails

Ross Copperman

Holding us up like a marionette
Pulling these strings, taking our breath
Away like the wind, carrying us
Making us feel like more than just dust

Love never fails
Oh, love never fails
Yeah, love never fails

With the whole world sitting in the palm of my hand
Empires turn from stone to sand
Time just takes 'til there's nothing to lose
All that's left in what you do

It's the simple kind of truth
That's when I turn and run to you

'Cause love never fails
Oh, love never fails
Yeah, love never fails

Yeah, love never fails
No matter what you say
No matter what you do
Yeah, love never fails
It'll never fail you

Oh, love never fails
No matter what you say
No matter what you do
Yeah, love never fails
It'll never fail you

Yeah, love never fails
It'll never fail you
It'll never fail you
It'll never fail you

Yeah, 'cause love never fails
It'll never fail you
It'll never fail me
It'll never fail you
Oh, love never fails
Yeah, love never fails
