

# I Think About You

Ross Lynch

**E**

Last summer we met

**Asus2**

We started as friends

I can't tell you how it all happened

Then autumn it came

We were never the same

Those nights, everything felt like magic

And I wonder if you miss me too

If you don't is the one thing that I wish you knew

I think about you every morning when I open my eyes

I think about you every evening when I turn off the lights

I think about you every moment, every day of my life

You're on my mind all the time, It's true

I think about you, you you, you you

I think about you, you you, you you

Would you know what to say

If I saw you today?

Would you let it all crumble to pieces?

'Cause I know that I should

Forget you if I could

I can't yet for so many reasons

I think about you every morning when I open my eyes

I think about you every evening when I turn off the lights

I think about you every moment, every day of my life

You're on my mind all the time, It's true

I think about you, you you, you you

I think about you, you you, you you

How long 'til I stop pretending

What we have is never ending

Oh, oh, oh

If all we are is just a moment

Don't forget me cause I won't and

I can't help myself

I think about you, Ooh, ooh

I think about you, Ooh

I think about you every morning when I open my eyes

I think about you every evening when I turn off the lights

I think about you every moment, every day of my life

You're on my mind all the time, It's true

I think about you, you, you, you, you

I think about you, you, you, you, you
