

Who U R

Ross Lynch

Hey girl, I really wanna let you know
Your style, it's something that's so natural
You laugh, and everyone around you stops
Your smile, I wish you knew just what you got
And don't be scared to show me something real
We'll never know holding back what we feel
I'm into you, so tell me you feel the same
And that's all it takes 'cause

Oh, girl you could be mine
Girl you could be mine
Once in a lifetime
Once in a lifetime
So open your heart
Open up your heart

Show me who you are
Show me who you are
Show me who you are
So open up your heart
And show me who you are

Hey girl, wish that I could let it go
But right now, it's time to let your true self show
And I'm sure if you just let down your hair
You won't have a reason to be scared
So take my hand, it's not that hard
You can have more fun if you let down your guard
I'm into you, so tell me you feel the same
And that's all it takes 'cause

Oh, girl you could be mine
My once in a lifetime, yeah
So open up your heart
Open up your heart

Show me who you are
Show me who you are
Show me who you are
So open up your heart
And show me who you are
Who you are, who you are
Show me who you are
Who you are, who you are
Show me who you are
I want you to show me who you are
So open your heart
And show me who you are

I've gotta let you know
Oh girl, you're just so natural
And I know that we could be something
If you show me who you are
And I wanna see it, hey!

Oh, you could be mine
Once in a lifetime

Hey, just open it up, and show me
Show me who you are
Who you are, who you are
Show me who you are
Who you are, who you are
Show me who you are
I want you to show me who you are
So open up your heart
Hey, hey yeah
Show me you are

Who you are, who you are
Show me who you are
Who you are, who you are
Show me who you are
So open up your heart
And show me who you are
