

# Mass Suicide

**Rotten Sound**

We all live in this sick world  
We all give to its violent call  
Insanity has driven us further  
Towards this disgusting nightmare

Transportation eats the oxygen  
Contaminated water is what we drink  
Pollution, killing the plants we need  
Mass suicide caused by the engineers

We all live in this dying world  
We will witness its final fall  
Caused by machines made to serve our needs  
Destructive effects were not seen

Transportation eats the oxygen  
Contaminated water is what we drink  
Pollution, killing the plants we need  
Mass suicide caused by the engineers

We all live in this sick world  
We all give to its violent call  
We all live in this dying world  
We will witness its final fall
