

## You My Flesh

Rotting Christ

flesh from my flesh  
natural or unnatural guess?  
even if they harm you  
you can't die

you my flesh, you my blood  
I see the truth  
when you die I'll die  
I saw through your eyes  
I spoke with your tongue  
I name you with my name  
flesh from my flesh  
natural or unnatural guess?  
even if they harm you, you can't die

they can't harm you  
they are only clouds  
come with me in a higher sky  
imagine your will and let it be

what is this that comes from you?  
the way it comes it makes me tremble like you  
without movement it creeps against us  
how does it dare it can't kill us

I never studied with my mistakes  
even when tired I'll do the same  
why did I give you life?  
why did I give you life?
