

## Black Leather

Rough Silk

On the wings of tomorrow  
We're riding side by side  
We beg, steal and borrow  
With nowhere left to hide

Sing one for you and me and how brave we used to be  
Well, no money but the pain will remain

Like black and leather  
We still belong together  
Like black and leather  
We'll never quit the fight  
Like black and leather  
We're holdin' on forever  
We're running free - ourselves to be  
We're coming home tonight

A black moon is rising  
We're back home from the past  
We tried to do the right thing  
But time travelles fast

Sing one for you and me and how brave we used to be  
Well, no money but the pain will remain

Like black and leather  
We still belong together  
Like black and leather  
We'll never quit the fight  
Like black and leather  
We're holdin' on forever  
We're running free - ourselves to be  
We're coming home tonight
