

Reborn To Wait

Rough Silk

Waves of dissection - attraction of death
It's getting bright at the long tunnel's end
War - resurrection - interaction of wrath
It might be a little too hard to understand

I used to be silent -I used to be strong
I used to be cool - now all I am is wrong
You used to be burning - I used to be straight
You used to be pretty - but now it's just late
No destiny - just fate - reborn to wait !

Holy creator of man, mule and sea
Traitor - annihilator - and such
Against all you stand for and whatever you want me to be
I won't and I don't owe you too much

I used to be silent -I used to be strong
I used to be cool - now all I am is wrong
You used to be burning - I used to be straight
You used to be pretty - but now it's just late
No destiny - just fate - reborn to wait !

Did you say the exact words when you broke the rules ?
If not we'll be doomed for all times
Ghouls of vengeance will get you, you fools
Forever on never still rhymes

I used to be silen -I used to be strong
I used to be cool - now all I am is wrong
You used to be burning - I used to be straight
You used to be pretty - but now it's just late
No destiny - just fate - reborn to wait !
