

Under The Guillotine

Rough Silk

Deny the lie - again as time goes by.
The reason - the season - the pain.
Tonight - the light - your demons side by side
read Shakespeare while you cry in vain !

Why should I now dare another try ?
The blood red fire sign flag
today will stay up there in the gray morning sky
- I won't get back !

Walking down - the headless crown !
Alone and lost - tomorrows clown !
Forever's just a ray of disgrace !
The avenue - assorted blue !
A constant thrill of deja vu !
I've got to get out of this place !

As silence fills the midnight air
the unknown mercenaries dare
to sing of those who never care
and everything else they've seen
- Under the Guillotine !

Born again - a yellow pen !
"freeze now !" shouts the fireman.
The rising force of darkness lives on !
The braindead - the pinhead
- the flame and the overfed
- the boring reality's gone

As silence fills the midnight air.....

Under the Guillotine
