

I Love The Way That You've Been Lovin' Me

Roy Drusky

I know this may not come as a surprise you surely must have seen it in my eyes
Darlin' it's plain as can be I love the way that you've been lovin' me
There's so much that my heart would like to say
And though my lips have never found a way
Each touch explains tenderly I love the way that you've been lovin' me
Others may search for heaven but darling I just can't see
Why I should search for heaven when heaven is mine constantly
Though I've become a prisoner of your love I swear by all the stars that shine above
I never wanna be free I love the way that you've been lovin' me

I never wanna be free I love the way that you've been lovin' me
