Lonesome 7-7203

Roy Drusky

Had our number changed today although I hated to But each time the phone would ring they wanna speak to you And it hurt to tell them you weren't here with me Maybe now, oh, telephone will let me be

It's not in the book so now you'd better write it down Just in case your love for me should ever come around You might want to call and break the news to me Just call lonesome 7-7203

I keep the telephone beside me all the time Hoping you might wanna call and say you've changed your mind If you do then, darling, you know where I'll be I'm at lonesome 7-7203
