

Drugs For Everybody

Roy Harper

Can't you see the future in drugs for everybody?
Can't you see the future in our hands?
Splifs down at the 7 to 11
Make your choice from 20 different brands

Smokin' shit,
Talkin it,
Can't you see the future in our hands?

Oh, the future, well she'll the right on by
I'll move to the never ever land
Back on the gondolas, with the broken rock n rollas
Dreamin of some future in their hands.

Can't you see hte future in drugs for everybody?
Don't you want to live the fairy tale?
Happiness available on tap over hte counter
Life and death...

With Hilary and Celery,
And make sure Bill remembers to inhale
The future, well she'd a ride on by
I'll move to the never ever land
Back on the gondolas with the broken rock n rollas
Dreamin of some future in their hands

Can't you see the future in drugs for everybody?
Helpin us escape the aches and pains.
The future is a planet I imagine I inhabit
On board the cocktail flowin through my veins.
Reality is not for me.
I'd sooner be completely out my brains.

Can't you see the future in drugs for everybody?
We could all be hundreds of years old.
Graphtin onto blue balloons and propogated monkies
The cookoos are the apocolypse untold
With valium, of a bum
Can't you see the promise in our cause?

In the great promises,
we'll heel the ride on by
I'll move to the never ever land
Ridin the gondolas with the broken rock n rollas
The future permanently put on hold.
As usual, everybody put on hold.
Yea we could put hte universe
on hold...

Yea let's go let's go, let's go let's go, let's go put the universe on hold.
..
