

Forbidden Fruit

Roy Harper

Baby, won't you play with me
Games that no one else can see?
Leanin' over out my window
Flashing me a mini flower show

Steal away from mummy, oh there's my little girl
On the pillow of my tummy give my hair a curl
Run your fingers under and over, make us a little pool
And don't forget about tomorrow in the same place after school

Baby, make me calm your fears
Let me hold your thirteen years
In between the silky love-nest
Race my heart and let my tongue rest

Oh baby I can feel you, see my thunderburst
Melting us together in the flames of magic thirst
We can be forever and ever, watching the water fall
Floating in the lake of all peace after love and after all

[La la la...]
We can be forever and ever, watching the water fall
Floating in the lake of all peace after love and after all
[Baby, won't you play...]
