

# I'm In Love With You

Roy Harper

Time was when you haunted me  
In my every stride  
Fantasy for company  
Joy I couldn't hide  
And happen what may  
Changes beyond our say  
Oh now that I've found you  
I'm not walking round you love  
Hearing you say  
I'm in love with you, my love  
I'm in love with you

I see children on my knee

But there's no one there  
Running daydreams thoughtfully  
With fingers through your hair  
Not wishing away  
The days 'til come what may  
Oh now that I've found you  
I'm not walking round you love  
Hearing you say  
I'm in love with you, my love  
I'm in love with you
