

# If Only For Awhile

Roy Orbison

For a while I can sing  
All the world and everything is touching you  
Knowing you are real a miracle beside me

For a while I can breathe  
Life is you, and I can cling to fantasies  
Seeing me with you keeps my soul alive now

Tomorrow, if I die  
At least I'll know why I live  
You're mine, if only for a while

For a while, for a while  
You hold my world and you can spin it  
For a while, for a while  
Life is good because you're in it

Tomorrow, if I die  
At least I'll know why I live  
You're mine, you are mine, if only for a while
