## If You Can't Say Something Nice

## **Roy Orbison**

Don't talk about her, she does the best she can Don't talk about her, Don't talk about her She's just lost her man She's lonely, just try and understand.

And if you can't say something nice Don't say anything at all Don't you know that she's had a bad, bad fall And if you can't say something nice Don't say anything at all.

Don't talk about her, because she feels that way Don't talk about her, don't talk about her She don't feel so good today She's crying, because her baby walked away.

And if you can't say something nice
Don't say anything at all
Don't you know that she's had a bad, bad fall
And if you can't say something nice
Don't say anything at all.
