

Never Love Again

Roy Orbison

I knew many loves before I met you
But I'll never love again
I could probably know others too
But I'll never love again
Thats enough knowing your love
I'll never love again
I'll never love again
I held many girls before I held you
But I'll never love again
I could probably hold others too
But I'll never love again
Thats enough knowing your love
I'll never love again
I'll never love again
I'll never love again
I'll never love again
