

# Cry Sister

Royal Bliss

I make your head ache  
I make you  
Me and the devil in your mind gonna settle the score  
I make your heart break  
You know I do when I a please  
Like a bullet in a gun I just give it a squeeze  
You know I'm carelless  
I don't folls  
I never seem to know when I'm crossing the line  
Oh am I sorry for the things that I've done  
I, I'm chasing the sun

So cry sister make it rain  
It makes no difference  
You'll never see me again  
You'll never see me again

I'll be your morphine  
I go straight in your head  
A fire in your mine, you'll be seeing the red  
I'm not your precious  
Oh don't you get on your knees  
Cause every motherfucker wants to taste your disease  
I know your torment  
Was just a part in your prayer  
You lie to the sky while you're folding your hands  
I know you hate me cause I'm all that you need  
I say goodbye, I'm gonna set you free

So cry sister make it rain  
It makes no difference  
You'll never see me again  
You'll never see me again

Cry sister make it rain  
It makes no difference  
You'll never see me again  
You'll never see me again

Cry sister, cry sister, cry sister  
C'mon cry sister yeah

Cry sister make it rain  
It makes no difference  
You'll never see me again  
You'll never see me again

Cry sister make it rain  
It makes no difference  
You'll never see me again  
You'll never see me again

Cry sister  
Make it rain  
Cry sister  
Make it rain  
Cry sister

Make it rain  
Cry sister  
Make it rain

Cry sister
