

Drown With Me

Royal Bliss

The night's still young, you should stay a little longer
We gonna have some fun, but not gettin any younger
Come on let's go, wer'e movin' too slow

Drown with me, take a hit of whiskey
We can go rebel 'round until it hits me
Did I make myself clear?
I said drown with me, let's get busy
Sing you a little song until you kiss me
Have I made myself clear now?

I know I'm not your style, I'm leather, you're lace
But I can make you smile, and take you out of this place
Come on let's go go go, we're movin' too slow for my baby
I wanna take you for a ride, yeah
We can go all night, I wanna cross that line

Come on and drown with me, take a hit of whiskey
We can go rebel 'round until it hits me
Did I make myself clear?
I said drown with me, let's get busy
Sing you a little song until you kiss me
Have I made myself clear now?
Did I make myself clear?

(Let's go for a ride)

Drown with me, take a hit of whiskey
We can go rebel 'round until it hits me
Did I make myself clear?
I said drown with me, let's get busy
Sing you a little song until you kiss me
Have I made myself clear now?
Did I make myself clear?
Oh, did I make myself clear yeah?
Did I make myself clear?
Did I make myself clear?
Said did I make myself clear?
