

## Fight Back

Royal Bliss

Will you be silent  
Or scream who you are  
Fight through the violence  
A light in the dark

Everybody's brave the other side of the screen  
It's time to wipe their message clean

You gotta fight back  
Don't back down  
Fight back  
Don't back down

Carry your conscience  
Play from the heart  
Nobody is perfect  
We're all made from scars

When they throw their stones you don't run and hide  
You gotta look them in the eyes

Fight back  
Don't back down  
Fight back  
Don't back down

Stand, stand your ground  
Until all these walls come down

You've gotta fight back  
Don't back down  
Fight back  
Don't back down  
Fight back  
Don't back down  
Fight back  
Don't back down  
Fight back  
Fight back
