

Hard and Loud

Royal Bliss

Got no time for the sentimental
Lay her down in the continental

Whiskey, women, rock n' roll

I like it hard, loud, out of control
I'll make you scream, shout, lose it all
I wanna savor, the flavor while going down
I'll make you scream my name

Here I come I'm a mercenary
Till they leave my name at the cemetery

Whiskey, women, rock n' roll

I like it hard, loud, out of control
I'll make you scream, shout, lose it all
I wanna savor, the flavor while going down
I'll make you scream my name
I like it hard!

Whiskey, women, rock n' roll
I like it hard, loud, out of control
I like the whiskey, women, rock n' roll
I like it hard, loud, out of control

I like it hard, loud, out of control
I'll make you scream, shout, lose it all
I wanna savor, the flavor while going down
I'll make you scream my name

I like it hard, loud, out of control
I'll make you scream, shout, lose it all
I wanna savor, the flavor while going down
I'll make you scream my name

I'll make you scream my name
I'll make you scream my name
I'll make you scream my name
I'll make you scream my name
I like it hard!
