

How You Like Me Now

Royal Bliss

Oh yeah
How you like me now
Oh yeah
How you like me now

I broke the law and crossed the line
Nothing left to fear that's all
It's the same old world the story line
I see it all so clear I know
Yeah I'm on fire

Oh yeah
How you like me now
Oh yeah
How you like me now

What you see is what you get
No lies and no regrets hold on
I've been waiting long enough it's time
To set this shit on fire that's all
I'm not going back

I know the difference
And I can walk in between
I've been here for awhile
I been doing the time
Yeah I'll show you what I mean
Lord I kissed the savior
Yeah her lips on mine
Only gonna take another minute or two
Before I blow your mind

Oh yeah how you like me now
I take a breath and wet my lips
Time to let it out
Oh yeah how you like me now
I take a breath and wet my lips
Time to let it out

Oh yeah
How you like me now
Oh yeah
How you like me now
Oh yeah
How you like me now
Oh yeah
How you like me now
