

Smoking Weed In My Underwear

Royal Bliss

Smoking weed in my underwear
Sittin' down in my lazy chair
Riding on the dreams that got me here

Down the road for another show
Say goodbye to the night before
You got to love this kind of life we live

And every now and then I like to make some noise
Cause a little trouble drinkin' with my boys
Howling at the moon till the sun comes up again

We're all just animals, oh yeah
Magic and tragical, oh yeah
In the end we're just animals, oh yeah yeah

Smoking weed in my underwear
Sittin' down in my lazy chair
Riding on the dreams that got me here

Sipping tripping on Jameson
Part of the reason for the state I'm in
Lucky me I'm surrounded by my friends

And every now and then I like to make some noise
Cause a little trouble drinkin' with my boys
Howling at the moon till the sun comes up again

We're all just animals, oh yeah
Tragic and magical, oh yeah
In the end we're just animals, oh yeah yeah

And every now and then I like to make some noise
Cause a little trouble drinkin' with my boys
Howling at the moon till the sun comes up again

We're all just animals, oh yeah
Magic and tragical, oh yeah
In the end we're just animals, oh yeah yeah
