

With A Smile

Royal Bliss

Leave me to my grave
With a smile on your face
I'll never say it
And they'll never take me alive

Their hands around your neck
They squeeze until you choke
Begging for your life
But they will be the ones
That hold you to the ground
Till you're one of their kind

Leave me to my grave
With a smile on your face
I wonder what you'll say
With a smile

Will you play the part,
Of an unofficial star?
Will you cross that line?
They feed upon your dreams
And they eat until you starve
Sell your soul, steal your mind

Leave me to my grave
With a smile on your face
I wonder what you'll say
With a smile, with a smile

I'll never say it
And they'll never take me
I'll never say it
And they'll never take me alive

Leave me to my grave
With a smile on your face
I wonder what you'll say
With a smile, with a smile

I'll never say it
And they'll never take me alive
