

# One Trick Pony

Royal Blood

Don't say you want me  
When I know your gonna do it again  
The fire is burning  
And I know you don't wanna be friends

You can never be my one and only  
Tricked twice by a one trick pony  
Still I'm dreaming that we'll get along somewhere somehow  
Ten reasons why our love grew paper thin  
Nothing left for me to sink me teeth in  
I've tried but I just can't hide the truth  
I just can't love you like I used to

A ship is sinking  
Its why I've been singing again  
Careless thinking  
Never made a meets to an end

You can never be my one and only  
Tricked twice by a one trick pony  
Still I'm dreaming that we'll get along somewhere somehow  
Ten reasons why our love grew paper thin  
Nothing left for me to sink me teeth in  
I've tried but I just can't hide the truth  
I just can't love you like I used to

Don't say you want me  
When I know your gonna do it again  
One trick pony  
When I just can't hide the truth  
I just can't love you like I used to  
Can't love you like I used to
