

## Ten Tonne Skeleton

Royal Blood

She took my heart, left me for dead  
And drank my blood, told me she said  
Our secrets worth its weight in gold  
That fire we had, those two we cold

Cut loose like an animal  
Fired out like a cannon ball  
But I waited too long  
Yeah, I waited too long  
Got me high from a holy vein  
Crashed down in a hurricane  
Love has been here and gone  
Love has been here and gone

Where did you go?  
Where did you run?  
I can't erase what you've done  
Let's burn the past, forget the truth  
I'm still more than him, I'm still loving you

Cut loose like an animal  
Fired out like a cannon ball  
But I waited too long  
Yeah, I waited too long  
Got me high from a holy vein  
Crashed down in a hurricane  
Love has been here and gone  
Love has been here and gone

Cut loose like an animal  
Fired out like a cannon ball  
But I waited too long  
Yeah, I waited too long  
Got me high from a holy vein  
Crashed down in a hurricane  
Love has been here and gone  
Love has been here and gone

But I waited too long  
For you only  
Love has been here and gone  
To die slowly  
Going under again  
So don't follow me
