

## On The Run

Royal Hunt

I got those wheels for nothin', yeah, some cash to burn.  
Talk of the town keep movin',  
No excuses, no return.  
Too dumb to steal, too proud to beg - don't shake my tree.  
I've been around the block,  
There money's tight and nothing's free!

An angels face and butcher eyes, a quiet prayer - pack of lies.  
They call you fate - I call you pain and here I go again!...

On the run,  
My journey's just begun! I'm  
On the run,  
Oh God, what have I done!  
On the run,  
Like a unforgiven son, I'm  
On the run!  
Like a night I'm chasin' down...

I won't take any crap and I'm not comin' back,  
I gonna give you kind of peace of mind,  
No - shadow's right behind your back.  
I've pumped it up, you've called me bad news, now I'm gone.  
No pity regrets 'bout,  
Things I've said and things I've done.

Look all around the place - law's gone, there's no respect,  
Don't get too close I've got my reputation to protect!  
So check it out the place is dead - low life, no fun.  
You listen up, and listen good -  
I'm better off just livin' on the run!
