

## Save Me II

Royal Hunt

(Save me)

(Save me)

Caught in the web of time (web of time)  
The seconds are shaking  
Exit's too far to climb (far to climb)  
So everyone's faking  
While sliding down the safety net

Screaming up in the air  
Hours are fading (hours are fading)  
I guess it is only fair  
Watching our breed degrading, anticipating

Save me, save me  
From this time and place  
We were given  
Save me, save me  
Tell a lie that you're... safe and forgiven

Unlock the door  
And I'll become your guiding light  
No fear no more  
You're gonna make it through the night!

Save me, save me  
From this time and place  
We were given  
Save me, save me  
Tell a lie that you're... safe and forgiven

Save me, save me  
From this time and place  
We were given  
Save me, save me  
Tell a lie that you're... safe and forgiven  
Save me

Oh, yeah  
Safe and forgiven  
Save me  
Oh, no  
Oh!
