

A Discovery (we're Lovely)

Royal Wood

Hope, hope
Filling a bucket full
Lines, lines
Between them I see the signs
Of stars, of stars
Heaven knows I'm alarmed
By what's been armed by us

Luck, luck
We're praying it's in the cup
Delight, delight
Thinking we have arrived
The sounds, the sounds
Heaven knows what's around
And what's been bound in us

We're lovely
We're lovely
There's nothing above it
We're lovely
So lovely
Our beauty's a discovery
And it's time

Life, life
Regardless of all the strife
It led, it led
Me down this here road to get
To you, to you
I've everything here to lose
So I've hired the moon for us
