

# Forever And Ever

Royal Wood

These two rivers meet  
They run together  
I will be with you for worse or better  
We'll keep traveling as long as the sun lasts  
Cause my future met and married your past  
When the stars fade to black  
I will say  
Hey hey hey  
I wanna run with you  
Hey hey hey  
So let them call us fools  
Hey hey hey  
I'll sing this song to prove  
Forever and ever and ever...

Been quiet for so long I didn't notice  
Was lonely for someone I didn't know yet  
But now we chase the moon to the horizon  
And you are still the one I've got my eyes on

How was I to know?  
How was I?  
How was I?  
Where this life would go?  
Now forever
