

Under The Years

Royal Wood

Turing tales with me
In those pages we were free
And I'll always love you then
Always love you

Parading in our bed
I'm a pillow for your head
Saying I'll always love you
And always love you
And you would say
You'll always love me
And always love me

Come take a walk with me
To the graveyard there
Where we'll lye together and be
Six feet under the years

Saying I'll always love you
And always love you
And you would say
You'll always love me
And always love me

Come take a walk with me
To the graveyard there
Where we'll lye together and be
Six feet under the years
