

## When Nothing's Left

Royal Wood

What is this we find ourselves alone again?  
Just you and I a force against the gears  
If nothing's left to burn we must burn ourselves  
When nothing's left to burn

How is this we find ourselves as two again?  
Yes you and I a rage against the mirror  
If nothing's left to say we must speak ourselves  
When nothing's left to say

How my love this moment here is ripe for us  
Yes you and I so brave against the years  
If nothing's left to live we must find a way  
When nothing's left to live

With all my heart...

Yes how my love this moment here is ripe for us  
Yes you and I so brave against the years  
If nothing's left to live we must find a way  
There's reason yet to live  
There's something left to give  
We must find a way  
There is so much to give
