

## Do It Right

Ruben Studdard

Tonight was so much fun but it's about time I should go  
Let me grab my things so you can walk me to the door  
I can't lie, deep inside I really want to stay  
But if I do, it would be a big, a big, mistake

It is just about blowing your mind  
Ain't nothing wrong with us, just taking our time  
Cause I'll be down this road that we're going tonight  
And if we gonna do it, we might as well do it right

Let me say good night and give you a goodbye to next time kiss  
Softly on your cheek but not that far from your lips  
Kissing in the doorway I feel something pulling me back in  
It's too strong for me, for me baby, to resist

It is just about blowing your mind  
Ain't nothing wrong with us, just taking our time  
Cause I'll be down this road that we're going tonight  
And if we gonna do it, we might as well do it right

It is just about blowing your mind  
Ain't nothing wrong with us, just taking our time  
Cause I'll be down this road that we're going tonight  
And if we gonna do it, we might as well do it right

We gotta do it right now, baby  
I need it

It is just about blowing your mind  
Ain't nothing wrong with us, just taking our time  
Cause I'll be down this road that we're going tonight  
And if we gonna do it, we might as well do it right

It is just about blowing your mind  
Ain't nothing wrong with us, just taking our time  
Cause I'll be down this road that we're going tonight  
And if we gonna do it, we might as well do it right
