I tell you where it's from
Africa
That's from where Ebola comes
West side
It hides in the suitcase
Two days later
It lands in USA
I get it from my girlfriend
And give it to my dad
I catch it on the subway
And leave it in the cab
I eat it at Subway
Drink it at Starbucks
Ebola's everywhere
And I give no fucks

They scared
It's bad
Ebola's gonna kill us all dead
They mad
How'd this happen
Gotta make sure that nobody else gets it

I'm sorry but I have it and you have it
Or you'll get it so forget it
Don't sweat it
Just let it be
I'm telling you Ebola's not the enemy
Listen

I have Ebo (La la la la la)
And you have Ebo (La la la la la)
And we have Ebo (La la la la la)
Everybody has Ebo (La la la la la)

Ebola

Every shitty little village in Africa
Has Ebola
Every city in America is getting it now
Just go with it bruh

Airports
Check if he's Black
He could have Ebola
So send him back
In fact keep an eye
On the Black Eye Peas

Mostly Black and Guy
Don't worry about Peas
And the Cosbys
Could have Ebola
Also Oprah
Let's just close up Detroit
Til this crisis is contained
Don't let the Obamas
On the plane

'Cause they black
They could have Ebola
Might as well also
Watch for Ayrabs
If they have a brown face
We'll keep 'em safe
In Guantanamo Bay

I'm sorry everybody for the drama
But we're gonna get Ebola
If we let black people in
Ebola's not a country in Africa
It's the whole continent
