

I've Got Cancer

Rucka Rucka ALI

First my wife got pregnant
Then I got cancer
So I said to this kid Jesse that I taught chemistry
Cook meth with me
We need an rv
We got an rv
What I didn't know then is that he got the rv from his dead fat friend
Who would then get shot by a little ass kid
Who would later get shot in the exact same spot
Prolly gus gave the order
But that began a ripple
That would get gus killed by a mexican cripple
Cuz I posend a kid and got him sick
And is it weird that the one black guy I knew sells chicken?
Coris
I've got cancer I need money now
I'm in the meth lab
Don't tell my brother in law
I've got cancer I'm Heisenberg
Remember my meth its blue
I never knew that
Me letting that girl gag and die
Would lead her dad to crash too planes
And my wife would screw that guy ted
And he'd fall on his head
While that fat guy is like wheres ya food at
My son has aspergers
He thinks that I murdered his uncle
I told him it wasn't my fault
But hes kind of atistic
So it doesn't stick
Its just kinda lost on him
He can't even walk good
I knew that dyin ringin guy
Didn't like his friend gustav
And would give his life to see him die
So I blew that guy up with gus and plus
That gay black guy who was kind of a dork
I've got cancer I need money now
I'm in the meth lab
Don't tell my brother in law
I've got cancer I'm Heisenberg
Remember my meth its blue
This bach is so great
I'll get my kid some shitty car
My meths in Ukraine
Cuz that red head's into lydia
I can't stop selling these drugs
I never thought id have blood on my gloves
I can't stop bakin it up
I can't believe this is what I've become

Jessy is a scumbag
He told hank everything like a dumb fag (snitch)
I'm in the desert gettin my money
But then jack killed hank
And took most of it from me

He left me a barrel
So I told my wife lets go
She said no this has all gone far enough
I went off to die alone in New Hampshire
But then I saw my old partner run his fuckin mouth about me
I've got cancer I need money now
I'm in the meth lab
Don't tell my brother in law
I've got cancer I'm Heisenberg
Remember my meth its blue
I took those 2 guys to the house
And made them promise to give my 2 kids my money
I said bye to my wife
And the truth that everything I did I did because it felt GOOD
I taught my gun to shoot at those guys and they died even todd that burnett
called up
I'm like hi you ate ricin
Good bye jessie then I died better call saul
