

## Vegans

Rucka Rucka ALL

All my friends are vegan faggots bro  
Searching for another man to blow  
They're all gay and they're into dudes  
They don't want any meat in their food

They don't want any meat in their food

Welcome to the veggie grill, hi, my name is Dave  
And I am gay, what would you like today?  
Just because I'm vegan, doesn't mean  
I don't swallow cocks night and day, cause I am gay  
If you ever had a bunny rabbit sleep next to you  
If you ever had a chicken hen make sex to you  
Then you get why it's bad to eat em in your food  
Animals are friends, we all are gay

We feel that it's wrong to eat a little snail  
We eat sweaty balls with a little kale  
You should come to the vegan convention  
You'll cum on several men's chins  
If you're into having big cocks, swing next to you  
If you ever had a pig stuck his penis into you  
It brings meaning to the saying cockle doodle doo  
After all, we're gay, nothing more to say

They don't want any meat in their food  
Animals should not be on our plate  
But, animals, they might be good to date  
I'm out here, banging some homeless mutt  
Looking for a set of monkey nuts
