

# Butterfly

Rumer

Butterfly  
Came into our room  
One summer night  
Lit the gloom  
And our hearts took flight  
You and I  
And our butterfly

Two wings  
Such pretty things  
I still recall  
I close my eyes  
To a waterfall  
Why, oh, why  
Baby butterfly

One day  
We'll follow you into the garden  
We'll lay down flowers in the rain  
Where life would never be the same  
That day  
You flew away and left us changed  
Who could have known  
You'd leave more  
Than life could give

One day  
We'll follow you into the garden  
We'll lay our flowers in the rain  
Where life would never be the same  
And someday  
We'll know where life goes into colour  
And everyone we've loved before  
Will take us through

Butterfly  
Came into our room  
One summer night  
Lit the gloom  
And our hearts took flight  
You and I  
And our butterfly
