

Evoked from Abysmal Sleep

Runemagick

From the deep hibernation
Evoked from abysmal sleep
The remains from the utter desolation
Echoes from the abyss so deep

Death cycles comes again
The old flesh, now they drain

Out of the ashes the shadows rise
Evoked from abysmal sleep
The past trembles like the once lost paradise
Echoes from the abyss so deep

Life cycles comes again
Death is not, death is not in vain

Abysmal sleep
