

Soul Vampires

Running Wild

Lifeforce's getting sucked out like our blood
Vampires taking everything we've got
They want us to live our lifes in fear
They want us to build a perfect gear
Vampires on our soul
We want it, we need it
We need revolt on holy ground
Like thunder & lightning
No chains or boundaries hold us down
Playing games with lies and thoughts control
Synchronicity their highest goal
They transgress the boundaries of good taste
Take a stand now, no more time to waste
[2 x Chorus]
