

World Appeal

Runrig

How can we close our eyes
Watch our world break down and die
How can we let it be
Slaves to world economy
How can we be like wood
Watch our world cry out for food
How can't we start to see
A glimpse of world simplicity
The hands of wealth are tied
Men of power run and hide
But we're players you and me
In the game of world duplicity
World appeal
World appeal
This is our planet
Let it heal
The earth, the rain, the air, the seas
This is our future
Let it breathe
