

Falling

RuPaul

Feel me, falling (3 x)

I miss you baby
Laying next to me
no matter where I go
you're the only thing I see
just on look from you
always make things right
so, why did we say goodbye?
I played folish pride
stayed right in the way
I must've been out of my mind

Finally the day has come
I realize you were the one
I got i feeling that I can't deny
I falling in love again

I can't ignore and won't even try
I'm falling in love again
Falling again

Feel me, falling (2 x)

I thought I get over you
But I wasn't so smart
This time I promise you
I listen to my heart
all I have to do was see you again
To know I made a mistake
Baby since like everything I did wrong to you
Came back as heartache

Finally the day has come
I realize you're still the one
I got a feeling that I can't deny
I falling in love again

I'm gonna tell it on the mountain high
I'm falling in love again

Fell me, falling (3x)
