

I'll Be OK

Rupee

Take away everything I own
Take away what I love to do
Just let soca music play
And I'll be ok, I'll be ok, be ok, be oh

Come festival time, we love to get on yeah
People jumping, young and old
When de DJ put on all ah we favorite song yeah
It's something that we feel in our soul

We waving and we jamming and we singing and we drinking
And we thinking that we love it
I am soca to the bone
Take whatever, do whatever, say whatever
Just let it be known

Take away everything I own
Take away what I love to do
Just let soca music play
And I'll be ok, I'll be ok
Said you could even bring your sticks and stones
And try to break my bones, whatever you do
Just let soca music play and I'll be ok
I'll be ok, be ok, be oh

Take away all my possessions yeah
Still won't do me anything, thing
As long as I inside a session yeah
To see my people dance and sing

We waving and we jamming and we singing and we drinking
And we thinking that we love it
Soca means the world to me, to me
Take whatever, do whatever, say whatever
And you will see

Take away everything I own
Take away what I love to do
Just let soca music play
And I'll be ok, I'll be ok
Said you could even bring your sticks and stones
And try to break my bones, whatever you do
Just let soca music play and I'll be ok
I'll be ok, be ok, be oh

You can take what you want to
Take what's mine
I'll be ok, be ok, be oh
Once I've got my music I'll be fine

Take away everything I own
Take away what I love to do
Just let soca music play
And I'll be ok, yeah
Said you could even bring your sticks and stones
And try to break my bones, whatever you do
Just let soca music play and I'll be ok

I'll be ok, be ok, be oh
