

How Do You Do

Rupert Holmes

You say I'm a stranger now
Let me introduce myself
I'm the man you've known for years
Who laughs with you and drinks your tears

You may remember me
I live my life with you
And we share a front door key
How do you do?

Each day we meet and then
Once more I fall for you
Now, my love, we meet again
How do you do?

How do you do all you do?
You must know you do me good
And how do you do me in?
My problems end where you begin

I've said this all before
You make life always new
Always new and always more
How do you do?

We've come to love so fast
It all comes down to you
And I've met my match at last
How do you do?

With all we've come to share
What do I know of you?
I would know you anywhere
How do you do?
How do you do?
