

Show Me Where It Says

Rupert Holmes

Where's it say I gotta be (Where's it say? Where's it say?)
What the world would make of me? (Where's it say? Where's it say?)
Where's it say I gotta sign (Where's it say? Where's it say?)
Right above the dotted line? (Where's it say?)
What they say, don't believe
Every hope needs room to breathe

Show me where it says I can't keep dreamin'
Ain't no law that says I can't keep dreamin'

Time and time and time again (Hear what I say)
Nine point nine times outta ten (Hear what I say)
Sun will set in golden skies (Hear what I say)
Show me where the sun won't rise (Hear what I say)
Show me how and show me why
And if I'm a fool to try

Show me where it says I can't keep dreamin'
Oh, you gotta show me
Ain't no law that says I can't keep dreamin'

What they say, don't believe
Every hope needs room to breathe

Show me where it says I can't keep dreamin'
Oh, you gotta show me
Ain't no law that says I can't keep dreamin'
I keep on dreamin'
Show me where it says I can't keep dreamin'
Ain't no law that says it
Ain't no law that says I can't keep dreamin'
I just keep on dreamin' and then
Show me where it says I can't keep dreamin'
Ain't no law that says it
Ain't no law that says I can't keep dreamin'
