

Lord Have Mercy

Rush Of Fools

From where I stand
It's hard to see
Beyond this storm
In front of me
You are my relief

My anxious heart
In search of peace
Here in the dark
I will believe
You are my relief

Lord, have mercy
It's an emergency
I cannot stand against
These waves that are crashing in
Lord, have mercy
Open my eyes to see
You are still in control
You reign above it all

Oh, come what may
I'll always know
Your arms are safe
They won't let go
You are my relief
Yes, You are my relief

In every circumstance
I will be in Your hands
You are my confidence
You never fail
When the foundation shakes
You are my saving grace
You never come too late
You never fail
